

Bio-Fluid

high-purity white oil

Bio-Fluid is a medically pure white oil containing no resins or acids which was specially developed for lubrication and care. It is water-clear, free of solvents, odourless and tasteless, and water-rejecting. It has excellent creeping properties.

Bio-Fluid reduces friction and wear, suppresses squeaky noises, protects against corrosion and removes dirt and rust.

Bio-Fluid can be used for the lubrication, protection and care of precision mechanisms, as a spray oil for production and filling plants, and as a lubricant for filling and packaging systems. It can be used wherever occasional, technically unavoidable contact with food or its packaging can occur.

Bio-Fluid was developed for applications in the food, beverage, pharmaceutical and cosmetic industries.

Technical Data

Odour	almost odourless
Features	resin- and acid-free
Storage stability	24 months
Colour	colourless
Temperature resistance	-25 to +120 °C

Processing

Clean and degrease surfaces. To ensure perfect spraying the product should have room temperature. Shake can before use. Spray on at about 15 cm from surface.

Storage

Pressurized container: protect from sunlight and do not expose to temperatures exceeding +50°C.

Safety and health

When using products, the physical, safety technical, toxicological and ecological data and regulations in our EC safety data sheets must be observed.
