

# Grease white Spray-on

## all-purpose sprayable grease

Grease white Spray-on is a multi-purpose sprayable grease with an outstanding adhering strength and excellent aging and pressure resistance.

The addition of special wear-reducing and corrosion-inhibiting additives allows it to achieve temperature stability from -20°C to +150°C (-4 to +302°F) in combination with a long service life. As with transparent products, a visual inspection is possible at all times.

Grease white Spray-on white can be used for the long-term lubrication of rods, gearwheels, rollers, ball bearings, hinges, guides and all types of joints and couplings in many industrial applications.

## Technical Data

Odour	solvent
Features	very good adhesive and lubricating properties
Storage stability	24 months
Colour	white
Temperature resistance	-20 to +150 °C

## Processing

Thoroughly clean parts to be lubricated (e.g. with Cleaner Spray S). Shake can before use and spray on at about 25 cm from surface.

## Storage

Pressurized container: protect from sunlight and do not expose to temperatures exceeding +50°C.

## Safety and health

When using products, the physical, safety technical, toxicological and ecological data and regulations in our EC safety data sheets must be observed.
